

Machinery Moulds and Spare Parts

Exclusive agent in Egypt

Mustafa Yontar

Multi Layer machinery

MY 6036 / KPM 1036

S.L. Machinery

SL Machinery

Single Layer machinery

QFT / SLST

SWING is the trading name of SWA Trade.

EGYPT / TURKEY

COMPANY SNAPSHOT / SEPTEMBER 2026

Our company in figures

Machinery, molds and spare parts, supported by local customer relationships, a warehouse in Egypt and a company branch in Turkey.

~10

Machines sold

Egypt | last 12 months

~50

Molds sold

With Mustafa Yontar | last 12 months

~160

Spare-parts customers

Egypt | current customer base

More than USD 6 million

Combined machinery and mold contract value with Mustafa Yontar.
Reporting period: 12 months to September 2026.

Egypt warehouse

Local spare-parts operations and direct relationships with concrete product manufacturers.

Turkey branch

Spare-parts and mold procurement, supplier coordination and import arrangements.

OUR GROWTH

We began sourcing spare parts from Turkey, established a warehouse in Egypt and expanded into molds. In 2025, we became Mustafa Yontar's official agent in Egypt and added machinery supply.

MACHINERY PORTFOLIO

Machinery and production solutions

Two machine families, backed by SWING's local supply and support.

Exclusive agent in Egypt

Mustafa Yontar

MULTI LAYER MACHINERY

MY 6036 | KPM 1036

Automatic multi-layer production for interlocking pavers, kerbstones and concrete products, with moulds selected for the required shape and size.

Exclusive agent in Egypt

SL Machinery

SINGLE LAYER MACHINERY

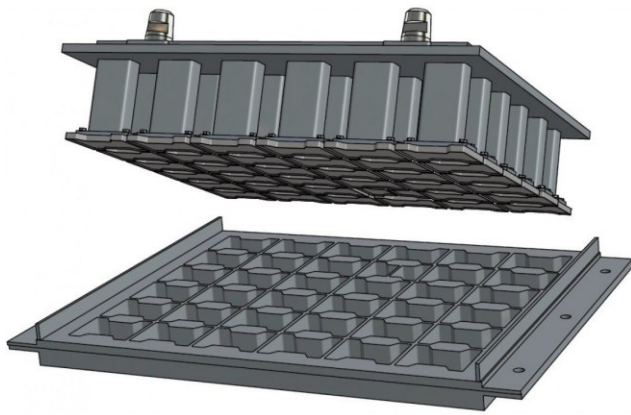

QFT6-15 | QFT10-15A
SLST1300XL | SLST2000A

Automatic single-layer lines for hollow blocks, solid bricks and interlocking pavers, with mixing and handling configurations matched to the project.

MOULDS AND SPARE PARTS

Products that support production

Mold and tamper assembly | product illustration

Moulds by Mustafa Yontar

Moulds and tooling for the required concrete products, dimensions and machine.

We coordinate machinery selection and supply block, paving stone and kerbstone molds. Compatibility and custom requirements are reviewed using machine information, drawings or samples.

Pallets and line equipment

Production pallets, batching and mixing systems, and product-handling solutions.

Spare parts and support

Hydraulic, electrical and mechanical spare parts, with supply and service coordination.

Hydraulic

Valves, coils, pumps, motors, filters, seals and cylinders.

Electrical & automation

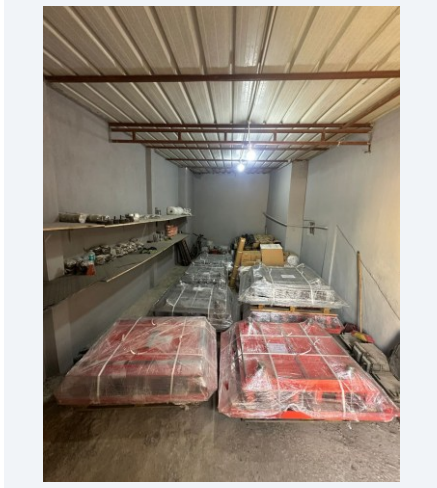

Sensors, encoders, PLC and HMI modules, relays and drives.

Mechanical & wear

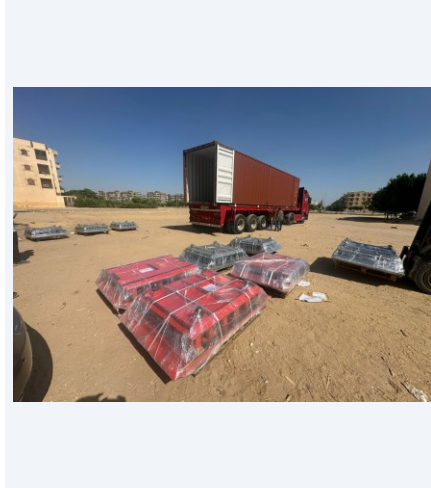

Wheels, bearings, air springs, rubber parts, gearboxes, wear plates and brushes.

OPERATIONS IN PRACTICE

From procurement to delivery

SWING storage warehouse, Egypt.
Molds and spare parts in storage.

Packed molds beside a delivery
container.

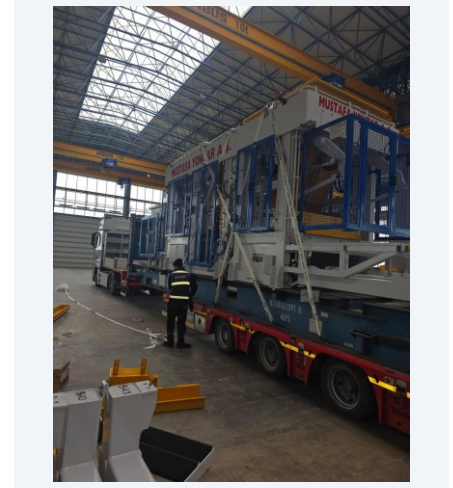

Photo: machine prepared for road
transport.

We coordinate mold and spare-parts procurement, shipment handling and delivery arrangements.

The pictured machinery shipment is for the Egyptian American Company project. SWING coordinates machinery supply and delivery arrangements.

Installation and technical follow-up are coordinated with externally contracted maintenance engineers.

Our supply process

01

Identify

Capture the part number, nameplate, drawing, sample or machine requirement.

02

Verify

Review specifications and compatibility before proposing a supply option.

03

Deliver

Coordinate procurement, shipping, customs clearance and local transport.

04

Support

Coordinate installation, commissioning, operator training and after-sales assistance.

SELECTED PROJECT EXPERIENCE

Our work in Egypt

Egypt Stone | Katameya

Mustafa Yontar MY 6036

SWING supplied the machine and coordinated shipping, customs clearance and installation. We also supply the factory's molds and spare parts.

Operating for approximately three months as of September 2026.

Egyptian American Company | Abu Rawash

Machinery supply, molds and hydraulic spare parts for the company's production operations.

United Engineers for Concrete Products | Kerdasa

Supply of molds and spare parts, plus relocation and installation coordination for a pre-owned 1036 machine purchased locally in Egypt.

Selected machinery contracts

Al-Nemeisy Company

Spare-parts and mold supply, plus a contract for a new machine.

Al Nile Concrete Products

Contract for a new Mustafa Yontar MY 6036 machine.

Ongoing mould and spare-parts supply

First Star Concrete Products

Suez | supplying molds and spare parts for more than two years.

Egyptian Russian Concrete Products

Giza | ongoing supply of molds and spare parts.

Al Baraka Stone Concrete Products

Katameya | supply of molds and spare parts.

Additional relationships: Hassan Allam, Safaga; Makkah Concrete Blocks, Helwan.

PEOPLE AND MARKET PRESENCE

A team connected to the market
